A MILLION FOR BRYAN.

The CLIMAX has this communication from a former Madison county man, now a resident of Randolph, Illinois. He is a son of Mr. George Millon, who resides on Pates Creek, five miles from this city. The younger Millon was here just before the election but returned home in time to cast his vote for Bryan, which accounts for the latter receiving more than a million votes in that State. He says:

When the Republican party promised, with the election of McKinley, to bring about good times for the working people, despite a contracted currency, they undertook a contract so preposterous that it was not short of a bunko game. The first sign of a reaction recently came at Lynn, Mass., when the working people whipped the G. O. P. out of its boots in the municipal election. The late McKinley campaign was a brazen fraud, so far as it pledged friendship to wage workers and farmers, and the aftermath will be harvested at the polls for the next decade.

W. B. MILLON.

SALUTATORY.

After a decade upon the Kentucky Register my connection with it was severed on November 12, the plant passing into the possession of Mr. R. W. Miller, a son of the late proprietor, Charles F. White. It would have been my pleasure, had the opportunity been given me, to have delivered my last testimony to the Register, the old friends who had remained and the many new ones who subscribed for it during its management. It is not for me to say that I have labored always for the best interests of our marvellously favored county, etc. Incidentally I would have remarked that I have never sold my services to any one, and that I have never been a member of any political party. I have been a member of the Democratic party—William Jennings Bryan. I had not counted the cost or gain of such a step. I only believed it right to uphold the man who upheld the banner of Democracy. Instantly I was met by a gold friend, a Francis Phantize, who bitterly denounced my course as devoid of courage or of principle and threatened me with personal violence, and I was told that kind of building and bigotry on the part of a man high up in the councils of the church of Christ, and that there I would stick to Bryan and to the cause of the plain people, be represented so long as such deplorable coercion and intolerance were exhibited. And I have been a member of the Democratic party of the town and county who upheld me in the step I took have made good their protestations of friendship and loyalty. I am following in the new field of labor, here upon the CLIMAX. View these advertising columns and inspect our circulation, which is the largest in the county.

We have been advised to "drop the subject of silver" and yet our gold standard friends go on organizing clubs, sending out literature, advocating participation in Democratic primaries. The truth is the cause of bimetalism, so far from having been killed at the polls in November last, has been advanced by a step, centered upon it during the campaign, and by the immense number of failures that have occurred since McKinley's election on a gold standard platform.

"Elect McKinley and the mills will open, commerce will revive, trade will be stimulated and prosperity will again bless our people." Such was the cry of the Republicans and their allies during the campaign. Over two months have elapsed since McKinley won and people are being fulfilled. Banks are failing everywhere. Five went down in one day last week. The merchants are not doing good business. The two months since the election are greater than the aggregate of all that succeeded in the months previous. In the solid city of St. Louis, where the gold standard has been laid off and salaries reduced. Railroads are cutting salaries, manufacturers are closing, merchants are not doing good business. "Expect a large sale in the spring." Druggists carry all their orders on the back of an envelope. More tramps have been seen in the land than ever before. The St. Louis Republic contains pitiful stories of starving women and children. But "confidence has been restored." Such is the result of the election. Had Bryan been elected these dire calamities would have been attributed to it, and the "I told you so" gold bug would now be crying "It was the fault of the Democrats." McKinley, the Advance Agent of Prosperity, has proven to be McKinley, the Advance Agent of Adversity. Place the blame where it belongs.

Republicans in public life are well aware that when it comes to financial legislation it will not do to maintain their campaign attitude toward silver. To the conservative masses, now that the fright over free silver is past, it will show its terrors, and four years of comparative calm discussion will do more for bimetalism than any campaign, however brilliant. American people are, as Senator Ingalls proclaimed, free silver.

From this it will seem that the writer is still true to the cause with which he stands. Temporary defeat last November, rather than being frightened into a course he did not believe in, has only made him more determined. If anyone cares to know it and to know the wherefore of it.

We were Democrats when we supported Bryan, and we are Democrats today, and we will support Democracy's nominees, let them come from whatever wing they may. There should be no issue between the Democratic and the Republican places the Republicans in the control of municipal, county and state affairs. I am one of those who are willing to subordinate national issues in such contests because I believe at all times in the supremacy of Democracy. With the disconcerting issue in party ranks, which the Republicans are constantly encouraging, defeat for the Democrats is inevitable. Therefore, inasmuch as the national issue, though which we have a principle, has been decided for the present, though as a principle it can never die it cannot and should not effect State, county or town officials.

With assurance of my discrimination to labor in my new field as earnestly as in the old, and with grateful thanks to the many written and personal assurances of support, I am respectfully,
CLARENCE E. WOODS.

NEBRASKA BELIEVES FREE SILVER THE REMEDY.

The silverites of Nebraska met Wednesday for the purpose of organizing a free silver legion. The conference is the outcome of a call largely and influentially signed, and the participants represented every county in the state. Mr. Bryan made his appearance while the preliminaries were in progress, and was given an enthusiastic reception. The call was made by Secretary Thomas F. Sturgess. In part it was as follows:

"We believe it to be impossible to restore prosperity in any permanent degree to the now prostrate industries and business of the country, or to save the masses of the people of the United States from greater spoliation except by a change in the present monetary standard and policy. It is further our opinion that the money question, especially as involving the restoration of silver to free and unlimited coinage, equally with gold, into full legal tender money at the ratio of 16 to 1, as under the law prior to 1873, regard loss of the action of any other nation, overshadows every other question and must remain the paramount political issue of the immediate future or until settled. We also believe that it is only through organization and systematic education that the masses of the people can be brought to see the fallacy and ruinous effects of the present system, or they can be united for its overthrow and to adopt a better system."

Mr. Riggs is already at his post and is delighted with his duties as a pedagogue.

Miss Mary Pattie was called to Frankfort on Thursday last by the illness of her cousin, Miss Lou Pattie, who is known here. Miss Pattie anticipated with pleasure her meeting with Mrs. Samuel Bennett, in the Capital city, and "there are others" who would delight to meet her and hear the voice of that beautiful singer who has such a warm place in the hearts of Richmond people.

Mr. R. W. Colyer, of this county, leaves today for Orbin, Ky., to take a position with D. T. Chenaunt, real estate agent, contractor, editor, and a general wide-awake business man, who has done much to build up the enterprising city on the line of Whitley, Knox and Laurel counties. Mr. Colyer is himself a hustler, and will add to the firm's successes, and carries with him the best wishes of many Madison county friends—not omitting the CLIMAX, which he has been taking for many years.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts, the pleasure of being promptly removed. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. The Magnifying Glass.

A decided novelty, one that has caused columns of favorable comment in all the scientific papers in the country, will be presented at the Over House, Thursday, Friday and Saturday evenings with machine Friday and Saturday. The latest invention for projecting moving pictures the Annet Magnifying Glass. This wonderful invention has been explained so often in the papers that a description is unnecessary.

In the Magnifying Glass pictures are thrown through a lens and appear on a screen magnified 60 diameters. So natural are the pictures shown by this machine that one sitting in the audience it almost appears as if living people were on the stage. Every scene is an exact reproduction in color, size and action of the original from which it is photographed.

Edison's latest Electrical Photograph will also be introduced, playing all the popular airs of the day. 300 beautiful dissolving views will also be shown. Popular prices will prevail, viz: 15 and 25 cents.

An Angel Saint.

Mrs. Susan White celebrated her ninety-third birthday on Friday, January 10th, at her residence, in this city. Her sister, Mrs. Sallie Russell, who is only ten years her junior, Mrs. White is the mother of the late Col. R. X. White, who was her only child. Mrs. White was married in 1820, at the age of 16, to Claiborne White, who died about 1833. For nearly twenty years, after her son died, Mrs. White resided on Lancaster Avenue and was the central figure in a large family circle of four generations. In an incredibly short time this circle was shattered by the hand of Death and only the oldest and the youngest now remain. Looking across the years, she can almost lay down to its twilight, this aged saint reclines in the arms of the few affectionate relatives remaining.

"Only waiting till the shadows have a little Only waiting till the day's last beams have when her soul will take on the white robes of immortality, and fly as straight to the bosom of her God as does the homing pigeon to its distant cot."

The Register Moved.

The prodigious task of moving the Register office was accomplished last Friday and Saturday. A dozen men with teams were engaged to haul the ponderous machinery, type and fixtures to the new quarters over Wallace & Rice's store, on Main Street, near Second. Here they are comfortably housed with a capital editorial room adjoining upstairs over D. M. Bright's store.

This is the first time the Register has moved in almost a quarter of a century, and it will be difficult for a while to disassociate the paper from its old habitation on First Street, with which it was inseparably connected with the memory of the late lamented Marion Green, its sole editor and proprietor for twenty-five years. From that office there never was issued a paper containing a slanderous or malignant charge, and there it made its enviable reputation as one of the cleanest, newest and best papers in the State. Under the new administration it is hoped the paper will not relax its efforts to give the people the best and most truthful news in the past, the steadfast friend of the people.

Convalescing.

Capt. Len Ballard, Superintendent of the Richmond Transfer Company, is on the road to recovery, and his many friends will rejoice to hear him yell, "All aboard, Righninghnb."

A Cure for Lame Back.

"My daughter, when recovering from an attack of fever, was a great sufferer from pain in the back and hips," writes Louisa Grover, of Sardis, Ky. "After using quite a number of remedies without any benefit she tried one bottle of Chamberlain's Pain Balm, and it has given entire relief." Chamberlain's Pain Balm is also a certain cure for rheumatism. Sold by W. G. White. 31-34

Foley's Honey and Tar.

Is the best Cough Medicine.

We all know any tired muscle can be restored by rest. Your stomach is a muscle. Dyspepsia is its manner of saying "I am tired. Give me rest." To rest the stomach you must do its work outside of the body.

This is the Shaker's method of curing indigestion, and its success is attested by the fact that these people are practically free from what is without doubt the most prevalent of all diseases. Dr. Shaker's Digestive Cordial not only contains digested food which is promptly absorbed without taxing the tired digestive organs, but it is likewise an aid to the digestive of other foods in the stomach. A 10 cent trial bottle will convince you of its merit, and these you can obtain through all druggists.

Cataris is a constitutional disease and requires a constitutional remedy like Hood's Sarsaparilla, which purifies the blood. 11

S. F. Fritz, of 677 Selwidge street,

Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians, with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved. I was enabled to sleep, the spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. I saved my life." 31-34

A bottle of Dr. Bell's Pine Tar Honey should be on the medicine shelf of every home. In a sudden attack of croup it is invaluable. It relieves the irritation and ending the danger in less time than it would take to go for the doctor. It stands pre-eminent as a remedy for croup, colds and all kindred diseases. 11

Mass. Hutton of Bell County, shot and mortally wounded his young daughter by accident Sunday.

Hall's Hair Renewer is pronounced the best preparation made for thickening the growth of the hair and restoring that which is gray to its original color. 11

G. B. Woodworth, a prominent citizen of Chattanooga, Tenn., committed suicide Monday Morning.

"Old, yet ever new, and simple and beautiful ever," sings the poet, in words which might well apply to Ayer's Sarsaparilla—the most efficient blood-purifier ever offered to suffering humanity. Nothing but superior merit keeps it so long at the front. 11

The wife of Joe Price burned to death at his home in Logan County in the absence of her young husband.

The analysis and expectorant for the cure of colds, and coughs and all throat, lung and bronchial troubles, is undoubtedly, Ayer's Cherry Pectoral, the only specific for colds and coughs admitted on exhibition at the Chicago World's Fair. 11

Robert Moran, of Adair County, the well-known weather Prophet, is dead.

Few people know that all plants contain digestive principles. They also absorb their food until it is digested into more or less animal food. The Mount Lebanon Shakers have learned the art of extracting and utilizing these digestive principles, and it is for this reason that their Shaker Digestive Cordial is meeting with such phenomenal success in the treatment of dyspepsia. The Shaker Digestive Cordial not only contains food already digested, but it also contains digestive principles which aid the digestion of other foods that may be eaten with it. A single 10 cent sample bottle will be sufficient to demonstrate its value, and we suggest that every suffering dyspeptic make a trial of it. Any druggist can supply it.

Laxol is the best medicine for children. Doctors recommended it in place of Castor Oil.

Measles and mumps are making life miserable for the Hawesville young folks.

You Can Do Well.

When your blood is pure, rich, and nourishing for nerves and muscles. The blood is the vital link, and when it is poor, thin and impure, you must suffer either from some distressing disease or you will easily fall a victim to sudden change of exposure; or overwork. Keep your blood pure with Hood's Sarsaparilla and be well.

Hood's Pills are the best after-dinner pill; assist digestion, cure headache. 25 cents. 11

Four horses in Union County died from eating frozen corn. 11

There is no joy in this world equal to the happiness of motherhood. A woman's health is her dearest possession. Good looks, times, happiness, love and its continuance, depend on her health. Almost all the sickness of women is tractable directly or indirectly to some derangement of the organs distinctly feminine. Troubles of this kind are often neglected because a very natural and proper modesty keeps women away from physicians, whose insistence upon examination and local treatment is generally as needless as it is common. Dr. Pierce's Favorite Prescription will do more for them than 50 doctors in 100. It will do more than the hundredth doctor can unless he prescribes it. It is a prescription of Dr. R. V. Pierce, who for 30 years has been chief consulting physician of the World's Dispensary and Invalids' Hotel, at Buffalo, N. Y.

There were five deaths at Miller, McCracken county in one night.

Lost.

On last County Court day between Richmond and Booneboro, two red steers, (recently dehorned) with some little white and one knife mark in front of left hip, weight about 800 pounds. Also one cow, cannot give description. Any information will be thankfully received.

Dr. G. W. EVANS.

With the blood pure and all the organs in healthy action, when in such a condition contagion is fairly resisted and the disease germs can find no lodgment. Hood's Sarsaparilla is the best medicine to build up the system because it makes pure, rich blood, and pure blood is the basis of good health.

In cold weather it is especially necessary to keep up the health because the body is subject to greater exposure and more liable to disease. Hood's Sarsaparilla is the safeguard of health. 31-34
